Dear Professor Phillpot:

Thank you for organizing the review of our manuscript "Predicting alloy vibrational mode properties using lattice dynamics calculations, molecular dynamics simulations, and the virtual crystal approximation." We are pleased to read the positive review and have responded to the referee's helpful comments, as described in the attached document and highlighted in the revised manuscript.

Sincerely,

A handwritten signature in black ink that reads "Alan McGaughey". The signature is fluid and cursive, with a long horizontal stroke at the end.

Alan McGaughey
